Cross County Connection can make your commute easier...

Cross County Connection makes it easy to find carpool and vanpool partners by matching people who live and work near one another. Our computerized rideshare system is approved by the New Jersey Department of Transportation (NJDOT) & provides matching services to all people working in southern New Jersey. Let us do the hard part— we'll help you find a rideshare partner.

{ Ridesharing isn't what it used to be... }

Your employer may be willing to help— more employers are interested in helping their employees with commuting issues than ever before. Emergency ride home programs, more flexible work schedules, and even preferred parking spots for carpoolers and vanpoolers are just some of the ways to assist people in getting to work more easily. We'll be glad to provide your employer with the details.

Ridesharing saves you money.

\$\$\$

Research conducted by the American Automobile Association (AAA) found that the national average cost of operating and maintaining a passenger car is 52.2 cents per mile. If you drive 40 miles per day, your average driving costs are \$8,768 per year. Sport utility vehicles are even more expensive. Sharing the ride to work with just one other person can substantially reduce your driving costs.

Take the first step to a stress-free commute by filling out and returning the attached application today. To complete this form online, visit www.driveless.com. Or fax the attached form to 856-983-0388.

This Cross County Connection Transportation Management Association publication is funded by the New Jersey Department of Transportation and the Federal Highway Administration. The Federal Government and State of New Jersey assume no liability for the contents herein.
